about the harvest

The crop was thinned to one bunch per shoot. In so doing we achieve even ripening of the fruit and more intense flavours and soft tannins.

Yield: 7t/ha

in the cellar

The grapes were carefully selected over the sorting table. The grapes had cold maceration for 2 days in stainless steel tanks and open tanks. The juice was pumped over and the cap punched down three to four times a day. The juice was left on the skins for 14 days after fermentation. Malolactic fermentation and ageing took place in 300L French Oak barrels. 30% new wood, 40% 2nd fill and 30% 3rd fill.
